

# NURSERY

## Rayastr'a Scholar Program

Introduction to alphabets (capital and small), phonics, and basic vocabulary

Number recognition and counting from 1 to 1000

Introduction to environmental concepts: animals, plants, seasons, space, nature, environment and weather

Fine motor development through drawing, coloring, and tracing

Personal and social skills: greetings, self-introduction, classroom behavior, empathy, and sharing

Rhymes, music, storytelling, and theme-based art & craft activities

Environmental Studies on States, Capitals, Countries, Continents and more.

**AND MANY MORE THINGS TOO!**

### Rayastr'a Advantage:

Structured lessons following school based kindergarten framework

Structured Rayastr'a's kit with all the expert learning amenities at your home

Regular interactive sessions for expression and concept reinforcement

Age-appropriate worksheets and home-based extension activities

Holistic development through physical, emotional, and cognitive exercises

Continuous progress tracking with teacher feedback and parent access

# NURSERY

## R's Codevoyagers Program

Pre-coding logic: sorting, sequencing, matching, pattern recognition

Cause and effect games using real-world objects and stories

Introduction to directions (left, right, forward, backward)

Interactive activities that build understanding of commands and logical steps

Use of age-appropriate digital tools for creative drawing and puzzles

AND MANY MORE THINGS TOO!

### **Rayastrा Advantage:**

Focus on logical reasoning and structured thinking before actual coding

Structured Rayastrा's kit with all the expert learning amenities at your home

Highly engaging activities to build confidence with technology

Low-screen, instructor-led sessions with tactile learning tools

Foundation for understanding algorithms in a simple, age-suited format

Future-ready skills development from the ground up

# NURSERY

## R's Communicators Program

Alphabet recognition and sounds (phonics with visual cues)

Vocabulary development through daily themes (family, animals, food, etc.)

Sentence formation practice: "I see a...", "This is a..."

Listening activities and story comprehension

Oral expression through show-and-tell, picture talk, and short role plays

Pre-writing practice: tracing lines, shapes, and letters

AND MANY MORE THINGS TOO!

### **Rayastrा Advantage:**

Structured phonics-based reading readiness

Structured Rayastrा's kit with all expert new learning amenities at your home

Emphasis on both English comprehension and verbal confidence

Real-life conversation simulations for early social English

Story-based learning to enhance memory and context usage

Encouragement of early writing fluency through guided practice

# NURSERY

## R's Math Magicians Program

Number writing and recognition from 1 to 1000

Introduction to zero and simple concepts of addition using objects

Conceptual understanding of big/small, long/short, near/far, light/heavy

Sorting and classifying shapes and everyday items

Activities involving counting, comparing, and matching

Application of math in real-life settings: shopping, home, nature

AND MANY MORE THINGS TOO!

### **Rayastrा Advantage:**

Concept-driven instruction, not memorization

Structured Rayastrा's kit with all expert new learning amenities at your home

Application-focused approach to build reasoning

Integration of visual aids, hands-on materials, and real examples

Weekly reinforcement through practical tasks and worksheets

Early numeracy with strong conceptual clarity
