## Rayastras Scholar Program

Covers all your school subjects here may it be English, Hindi, Maths, EVS, Science, Arts, Storytelling, GK, Cognitive development, Fine motor development, Creative Arts and others.

Alphabet mastery: recognition, phonetic sounds, and correct letter formation (both uppercase and lowercase)

Vocabulary building with thematic word sets (animals, body parts, home, transport, etc.)

Sentence-level reading readiness using phonics

Number identification and writing from 1 to 2000, with introduction to backward counting

Introduction to calendar concepts (days, months, birthdays)

General awareness: community helpers, plants, weather, cleanliness, and safety rules

Daily speaking opportunities and structured art, music, and movement sessions

**AND MANY MORE THINGS TOO!**

### Rayastras Advantage:

A well-balanced program aligned with kindergarten learning outcomes

Structured Rayastras kit with all expert new learning amenities at your home

Daily routines that build discipline, curiosity, and academic habits

Real-world application of classroom learning through theme-based assignments

Thoughtfully crafted worksheets to promote self-paced practice

Comprehensive parental reports for tracking literacy and numeracy progress

# L.K.G

## R's Codevoyagers Program

Understanding of sequence and order through storytelling and action patterns

Real-world coding games involving movement, blocks, and visual logic

Hands-on unplugged coding exercises (like command cards, robot path-finding)

Introduction to screen use: how to use a mouse/touchpad and understand software vs. hardware

Exposure to age-appropriate digital art, drawing, and animation tools

AND MANY MORE THINGS TOO!

### Rayastrा Advantage:

Focus on thinking in steps — the essence of computational logic

Structured Rayastrा's kit with all expert new learning amenities at your home

Screen-light learning with real materials, guided interaction

Emphasis on understanding cause-effect through guided activities

Builds patience, focus, and problem-solving in children from an early stage

Designed in alignment with global early tech education principles

# L.K.G

## R's Communicators Program

Phonemic awareness and word blending (e.g., "cat", "bat", "dog")

Structured vocabulary building based on real-life settings

Sentence construction with correct use of articles and verbs

Short guided reading sessions with storybooks and visual cues

Speaking practice: storytelling, show and tell, picture descriptions

Written English: tracing, writing three-letter words, and beginning sentence copying

AND MANY MORE THINGS TOO!

### Rayastrा Advantage:

Early reading strategies aligned with international phonics frameworks

Structured Rayastrा's kit with all expert new learning amenities at your home

Personalized speaking time in live classes to boost confidence

Focus on everyday English usage and conversation etiquette

Emphasis on handwriting and spelling accuracy from early on

Integration of storytelling for imaginative and expressive development

# L.K.G

## R's Math Magicians Program

Number writing and reading from 1 to 2000, with introduction to before/after concepts

Basic addition using visual aids and everyday objects

Identification and sorting of 2D shapes (circle, square, triangle, rectangle)

Introduction to measurement concepts: tall/short, heavy/light, thick/thin

Pattern recognition using objects and numbers

Introduction to the concept of time: day/night, morning/evening

Real-life problem solving: counting items in a group, understanding "more than/less than"

**AND MANY MORE THINGS TOO!**

### Rayastrा Advantage:

Blend of visual, tactile, and verbal learning techniques

Structured Rayastrा's kit with all expert new learning amenities at your home

Application of mathematics to everyday situations

Regular practice sheets to build writing accuracy and speed

Focus on clarity in concept and daily reinforcement through guided sessions

Encouragement of math vocabulary (e.g., count, add, equal, same)
